THIS WEEK'S PICK LPs

Larry Lee and The Looseners are a well-timed and well-known Canadian club act. They make many appearances throughout Upper Canada and down capacity houses at many of the peak clubs in Las Vegas and Hawaii. There's not many Canadian groups who will venture into an album release but the Looseners have and they used the services of Ben McPeak as arranger and Bob Wallis as producer. "Daredevil" currently grabbing some action as a single is included on this album along with their past hit single "Tequila-Go-Home". Other cuts which have proven to be crowd pleasers are "Solitary Man", "I Let My Heart In San Francisco" and a real favourite wild jock, "Cry".
COLUMBIA - 8L 114

Ever get so enthusiastic over the arrival of an album that you get so stoked you almost play the jukebox? Well, that's what happens when this one comes in. Just look at what Tom Jones has to offer. His big hit "Green Grass of Home" and his larger than life smash "Woman in Love". When you get over the initial waves of getting the album, you can relax and just turn yourself off. You don't need a thing to enjoy Tom Jones. What so come to old standards is just too much. "That Old Black Magic", "If Ever I See You Again", "My Mother's Eyes", "I'm Just Getting Started" and "Cry". I had an older cat listening with me. She remembers that one.
PARROT - 4100

Tony Joe is probably the best-selling pop-writer-artist in the past year. He's just getting over his seasonal hit "It's Now Winter's Day", which is included on this album, and as the strength of the upcoming material, this album should become a standard. There are a collection of Joe tunes going back 10 years. They include "Lemon Mer", "Moonlight", "Long Live Love", "Sweet Surrender" and "Butter Great Cuts". That makes 17 cuts in all and at the rate they're putting down no sides per album, this one is a bargain. You might also be interested to know that it was cut at Gary Paxton Studios and you know who he is.
