Top-mounted nylon lint filter removes lint and fuzz; quickly removes for easy cleaning.

White Porcelain enamelled top. Durable White baked enamel finished sides and front. Vents from side or rear.

F59-A 4120. Model D65J. Size 43½ by 27¼ by 28⅞ inches wide. 220-volt, 60-cycle. 179.95
F59-A 4122. Model G65J. De luxe Dryer with 25,000 B.T.U. Natural Gas burner. 214.95

INSTALLATION

Automatic Washers require threaded hot and cold water faucets within 5 feet of washer. We recommend at least a 30-gallon hot water tank or 22-gallon gas unit. Regular washers require single laundry tub or stand-pipe floor drain. Suds-saver models should be used with double tubs. All washers require 110-120-volt, 60-cycle A.C. outlet. Dryers operate most efficiently on 220-volt, 3-wire service. Installation may be arranged through your local EATON'S Catalogue Sales Office at a reasonable extra charge.
